FEED THROUGH CONNECTORS
FT Series

The FT Series of true feed through connectors are perfect for developing custom I/O configurations for wall-plates, rack panels, etc. ALL fit within a standard XLR panel cutout, and use common cabling for front and back connections. No soldering, no punch terminations, just use the standard cable for that particular connector style. Mount from the front or back, low rear profile accommodates the tightest "behind the panel" spaces. Available in a wide variety of styles.
